- 100% new or upgraded product deployment to Toronto from January 2027
- Only carrier to operate Mumbai-Toronto flights this Winter
- Hi-res visual assets available here: <https://we.tl/t-GFxaVvkCxaByGoai>

GURUGRAM, 01 August 2026: Air India today deployed its brand-new B787-9 aircraft on Delhi-Toronto flights, bringing the airline's all-new cabin product and onboard experience to Canada for the first time and significantly elevating passenger experience.

Building on this milestone, Air India announced the expansion of its Canada operations for the Winter 2026-27 season with:

- A new non-stop service between Mumbai and Toronto
- Overall capacity between India and Canada increasing by 4,400 seats each month
- Premium seat capacity to Toronto boosting by 71%

New, seasonal Mumbai-Toronto service with upgraded interiors

Air India will launch a seasonal **3x weekly non-stop service between Mumbai and Toronto** between **25 October 2026 and 26 March 2027**, adding nearly 2,000 seats each week between India and Canada and making it the only carrier operating direct flights between the two cities.

The service will be operated by Air India's **Boeing 777-300ER aircraft with significantly upgraded cabin interiors**, featuring 8 luxurious First Class suites with privacy sliding doors, 40 flat beds in Business Class, and 280 seats in Economy.

Travellers between Mumbai and Toronto will also enjoy WiFi internet connectivity on board the upgraded B777-300ER aircraft.

Through Air India's hubs at Mumbai and Delhi, customers travelling to/from Canada can connect seamlessly to destinations including Ahmedabad, Amritsar, Bengaluru, Chandigarh, Chennai, Hyderabad, Kochi, Ludhiana, and Vadodara, among several other Indian cities.

100% new or upgraded product deployment to Toronto from January 2027

Of the 10x weekly flights Air India operates on the Delhi-Toronto route this Winter, 7x weekly services will be operated by the brand-new Boeing 787-9 aircraft, featuring the airline's latest cabin products. The remaining 3x weekly services will be initially operated by Boeing 777-300ER aircraft and will **transition to the new Boeing 787-9 from January 2027** as more aircraft join the fleet.

With that, all Air India flights to and from Toronto will feature all-new or significantly upgraded cabin interiors, delivering a consistent premium experience across the market.

The deployment of the new and upgraded aircraft to Toronto from Delhi and Mumbai enables Air India to **boost premium seat capacity to Toronto by 71%** this winter, offering more First Class, Business Class, and Premium Economy options to travellers.

Nipun Aggarwal, Chief Commercial Officer, Air India, said: "Canada is one of Air India's most important international markets, with deep people-to-people connections driving strong demand for travel, particularly during the festive and holiday season. The launch of our seasonal Mumbai-Toronto service this Winter will provide travellers more choice and convenience at a time when many are travelling to reunite with family and friends. At the same time, we are also progressively introducing our newest aircraft and the latest onboard products to North America, reflecting our intent to put our best foot forward in one of the world's most competitive long-haul markets. Together, these initiatives mark another important step in our journey to make Air India a world-class airline and the preferred gateway between India and the world."

Schedule of flights to and from Toronto:

Flight #	City Pair	Departure	Arrival	Days of Operation	Aircraft
AI187	Delhi-Toronto	0145 Hrs	0930 Hrs	Daily	Brand-new B787-9

In the 2026-27 Winter season, Air India will operate a total of 20 flights each week from India to Canada, including 10x weekly from Delhi to Toronto, 3x weekly from Mumbai to Toronto, and 7x weekly from Delhi to Vancouver.

About Air India Group

The Air India Group – comprising full-service global airline, Air India, and value carrier, Air India Express – is spearheading a new era of Indian aviation. The Air India story began in 1932 when JRD Tata piloted the airline's inaugural flight and opened the skies for aviation in India. Today, Air India Group employs more than 30,000 people, operates over 300 aircraft and carries travellers to 60 domestic and 51 international destinations across five continents.

Returning to Tata Sons in 2022 following 70 years under Government ownership, Air India Group is in the midst of a five-year transformation programme, Vihaan.AI. As part of the transformation, Air India has placed orders for 600 new aircraft. In addition to taking new aircraft deliveries, Air India is progressively retrofitting all its legacy aircraft.

The Air India Group operates South Asia's largest aviation training academy in Gurugram, India. The construction of a new flying school and a greenfield maintenance base is in progress.

With transformation underway across all facets of the business and India's rich legacy of hospitality, Air India is committed to being a world class global airline with an Indian heart.
